Wheels for the Wise™
DRIVING INDEPENDENCE

To the Service Officer or President,

We're thrilled to announce that **Wheels for the Wise is now officially operating in *[ADD PROVINCE]!***

Our mission is simple but powerful: to help Veterans and individuals travel safely and smoothly to and from their medical appointments, while ensuring they are supported, reassured, and never left alone during what can often be a stressful day. We're proud to expand into your province and are eager to work with your Legion to ensure local Veterans have access to the reliable, compassionate transportation they deserve.

Since 2012, Wheels for the Wise has proudly supported Veterans and active military attending pension-related and approved medical appointments across Canada. As demand continues to grow nationwide, we've answered the call—expanding rapidly to bring this essential service across Canada.

Over the past year, I've personally visited Legions across PEI, New Brunswick, Nova Scotia, Newfoundland, and Ontario—attending General and Executive meetings to highlight how this service supports Veterans attending critical medical appointments, treatments, and surgeries. This letter is part of that ongoing national outreach—to inform Service Officers, case managers, and Veteran community groups about how the service works and the support it offers. **I also look forward to visiting your Legion soon to follow up in person and confirm this information was received.**

In case you'd like to discuss it at your next General Meeting, here's how the service works: Wheels for the Wise **offers round-trip medical transportation for pension-related conditions**. **For eligible, approved services, Wheels for the Wise bills Medavie Blue Cross directly.** Our drivers—many of whom are Veterans themselves—remain on-site throughout the entire appointment, providing consistent support and reassurance every step of the way.

Our goal is to remove the burden of transportation and appointment-day logistics from the shoulders of Veterans, their families, and friends—giving them one less thing to worry about during an already difficult day. To register, simply call **1-888-719-9473**. Please take a card provided—or pass one along to a Veteran who may benefit from this valuable service.

We are making a real difference in Veterans' healthcare across this country—supporting thousands every year. In some cases, we are helping save lives. This isn't just a helpful service; it's essential. As in every province we've expanded into, we believe every Legion can have a key role in helping us get the word out.

On behalf of our entire team at Wheels for the Wise—**thank you for your Service, and thank you for helping us spread the word.** Should you need further information, don't hesitate to contact us. **Your support helps ensure no Veteran is left without a ride to the care they've earned.**

Warm regards,

Wesley Bazowsky
